Re: **File No. 6006, Student Information System for Cambridge Public Schools-
Addendum No. 2.**

The following question was submitted and answered.

Question

Do the timing of the implementation and proposed SIS go live after your current year has ended, Cambridge will build their 2013-2014 schedule in SIS expires. Do you want us to include the first year of schedule build training on your new SIS in this current proposal? The training will take place after January 2014?

Answer

Since the price proposal is for 3 years the cost of training should be included in whichever year it will be provided.

All other details remain the same. All questions and answers are closed.
